Dear Supporter:

On behalf of the XP Family Support Group, dozens of volunteers and a group of courageous youngsters who suffer from Xeroderma Pigmentosum, Please accept our sincerest gratitude for your recent participation in our Annual Land & Sea Tri-tip and Crab Feed. Our event was a resounding success and all had a great time. With your help we were able to raise over \$20,000.

“Hope for people affected by any life-threatening disease is strengthened by every dollar provided for its cause. In today’s economic climate, The Xeroderma Pigmentosum Family Support Group is acutely aware of the fragility of our existence. Without you, there would be no such program. You provide us with the hope to continue. While the XP Family Support Group is dedicated to assisting the patients of this life altering disease, the real heroes among us are those who enable us. In essence, it is **YOU** that inspires us to do a better job. The trust you put into our efforts lends us the energy and the stamina to battle this deadly enemy. With each contribution, there is authenticity for optimism. Without you, hope is all we’ve got. Make no mistake-you are the catalyst; the companion that provides the power. Without you, these children do not stand a chance. Please consider us a part of your future donation portfolio

Thank you,

Michele Milota
Executive Director
XP Family Support Group
